Row 23: YO, k 11. Knit the first stitch of the YO pair. Slip the next three stitches knitwise onto the right needle, return them to the left needle and k3tog.

Repeat rows 22 and 23, making sure to increase the number of worked stitches by one every row, nine times more. Work Row 22 once more.

With a spare needle (or two), pick up the stitches just above the contrasting waste yarn. You should have 29.

NOTE: Because you will be changing the direction of the knitting here, you will only be able to pick up 29 stitches – even though you cast on 30. Additionally, every stitch you pick up will be twisted. Be sure to untwist your stitches before knitting them!!

Row 38: K2tog, K28. DO NOT TURN. This marks the end of the short-row toe. Proceed in the round across instep stitches, working in lace pattern and picking up stitches if you need to reduce holes at the join between the heel and instep stitches.

NOTE: You will need 58 stitches total. Be sure to increase or decrease stitches if necessary in the next round in order to achieve that amount.

You will continue in the lace pattern for the instep stitches and in stockinette for the heel stitches until the sock measures 2" shorter than the desired length. End with instep stitches.
